Navy Bands: What You Need to Know

- Let the band help you
  - Contact them early; they can help you plan and set up performances (preferred method)
- Bands deliver Navy key messages from the stage
- Bands have the ability, given proper notice, to alter music in order to focus on target audience or a particular venue
  - Music is not necessarily the same for Fargo and Indianapolis
- All Bands are structured basically the same, but assets (units) vary because they are dependent on current onboard manning
  - A least two bands are currently without trained vocalist
